SKILLS

- JavaScript
- Tailwind CSS
- Bootstrap CSS
- Responsive website
- CSS
- HTML

LANGUAGES

- English (IELTS Band Score: 6)

PROFILE

I'm a frontend developer with a strong focus on building clean, responsive, and user-friendly interfaces. I work with HTML, CSS, Tailwind, Bootstrap, and JavaScript, and I enjoy turning ideas into interactive web experiences. I'm also experienced with React and Firebase, which I often use to build dynamic applications and handle backend functionality like authentication and real-time data.

I'm always curious to learn new things and improve my skills. I take pride in writing code that's not just functional but also clean and maintainable. Whether it's a simple landing page or a complex web app, I love paying attention to the little details that make a big difference in user experience.
